

SchoolDrive.Net is an online school management application that stores its data in the cloud. Using SchoolDrive, schools can manage both public and company courses while teachers can complete their administrative tasks online.

Besides school staff, teachers, corporate customers and students also have access to the system 24/7. Teachers do their administration by themselves and corporate customers are always up-to-date about their employees' progress. All parties are self-servicing, thereby reducing the workload of office staff.

The aim of the system is to optimize processes within the school and to do whatever is possible electronically without the use of paper. For example, since paper invoices can be eliminated, teachers need only prepare their invoices for schools with one click. These can be shared with the school via the system. Should a school accept the invoice, it automatically becomes part of its administration. Corporate customer invoices can also be prepared with one click and these appear immediately on the customers' interface — followed by an email notification.

## Main features

- Master data (courses, teachers, students, customers) management
- Course administration, definition of tasks, breaks, course feedback
- Automatic verification of teachers' administration and list of deficiencies
- Definition of standard syllabi, can be applied to courses
- Waiting list management, online student application incl. written test
- Finance: invoicing, archiving invoices, daily close, acceptance of teacher invoices, importing bank transactions, tracking receivables
- Over 20 document template types and visual template editor
- Survey editor for placement tests, student feedback, teacher assessment
- Drag & drop classroom management
- Reporting, exports, sending emails

For teachers:

- Progress sheet, attendance sheet upload, syllabi, student evaluations
- Spoken tests, teacher assessments, administration of other teacher tasks
- Checklist before invoicing
- Calendar, school and private events
- Invoicing application, one click invoice creation to schools
- Store, share documents (diploma, cv)
- User interface for mobile phones

For corporate customers:

- Tracking of courses and documents related to courses, statistics
- Electronic invoices, timesheets
- Course calendar

For students:

- Online sign-up, placement, payments
- Tracking of courses, classwork, chat

## Benefits

- Course administration is checked for completeness, which is otherwise impossible due to the huge amount of data. Correct and up-to-date administration is a regulatory requirement, but also ensures a higher level of service.
- Teachers and corporate customers are self-servicing, thus the workload of school staff reduces.
- Teacher data is checked for completeness before preparing customer invoices. Customer invoices are prepared and shared or emailed with one click.
- Integrated invoicing that enables tracking of receivables
- Dashboard for financial oversight
- State of the art desktop user interface running browsers.
- Migration of existing data, imports

The screenshot displays the SchoolDrive.net web application interface. The browser address bar shows 'www.schooldrive.net/index\_teacher.jsp'. The interface includes several tabs: 'Jobs', 'Calendar', 'Timesheet', 'Invoicing', and 'Personal data'. The main content area is divided into several sections:

- To-Do List:** A list of tasks such as 'Progress sheet (1)', 'Missing (1)', 'Evaluation (1)', 'All fields are needed (1)', 'Attendance sheet (2)', and 'Missing (2)'.
- Students (1):** A table showing student details for Kállai Livia, including mobile number, email, and attendance (58% / 88%).
- Lessons (32 of 64 done):** A calendar grid showing lesson dates from 2016-09 to 2017-01, with green squares indicating lesson dates and 'X' marks for specific events.
- Syllabus / Round 1 (64 lessons):** A table with columns for Date, Lessons, Topic, Grammar, Vocabulary, Skills, Functions, and Comments. It lists lessons for 03/30/2017, 04/06/2017, and 04/13/2017.
- Evaluations:** A table showing evaluation details for a test on 02/16/2017, including student name (Kállai Livia), test score (86%), level (C1.5), and attendance (62% / 100%).

At the bottom left, there is a 'Print attendance sheet' button. The footer of the page contains the copyright information: '© 2015-2021 Solware Ltd. (www.schooldrive.net)'.
